You select by clicking on the checkbox the exams you want to sit in for (both for the First and the Second Year, whose label is **2° Anno**)

First of all: check whether you have put all the exams needed in your study plan. To do so select: **CONTROLLO** (the orange circle).

If everything is OK, the page will tell you “**Piano di studi approvabile**”, usually written in **green text**.

If not, you made a mistake in the exams you selected (for example you may have chosen too many credits, exams you cannot take...).

You can **save the draft** (blue circle), **print it** (red circle) but **to send the study plan** you have to click **INVIA** (yellow circle).

Remember that the action of sending your study plan cannot be undone in the system!
